

Daniel Nepelski

Daniel Nepelski holds a Ph.D. from the Humboldt University Berlin and works at the European Commission in the Institute for Prospective Technological Studies (IPTS) in Seville as a research fellow. Before joining the IPTS, he worked as a research fellow at the German Institute for Economic Research in Berlin (DIW Berlin).

His research interests are in the area of Industrial Organization with a particular focus on Competition Policy and Innovation Economics. Within the field of Industrial Organization, his recent work has focused on studying the relationships of technological change, competition and vertical relations between firms. In the area of Innovation Economics, he studies the issue of R&D internationalisation, innovation and firm performance.
